EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Sean D. Solberg on October 22, 2004.

The application has been amended as follows:

Claim 1, line 12, after "...receiver..." insert --; and the animal portion further comprising a tongue operably coupled to the motor, the tongue comprising a plurality of elongated members connected as a lattice that extends and retracts--.

Cancel claim 7.

Claim 8, line 1, delete "7" and insert -1--.

Claim 15, line 9, after "...the magnetic portion is..." insert -moveable within the outer shell and is--.

Allowable Subject Matter

Claims 1-6 and 8-17 are allowed.

The following is an examiner's statement of reasons for allowance: The specific limitations of "...a tongue operably coupled to the motor, the tongue comprising a plurality of elongated members connected as a lattice that extends and retracts...the magnetic portion is moveable within the outer shell and is configured to be capable of moving the magnetic object while the magnetic object remains in contact with the outer shell..." are not anticipated or made obvious over the prior art of record in the examiner's opinion. For example, U.S. Patent No. 4,708,685 to Udagawa teaches the claimed invention, however, fails to teach the magnetic portion being moveable within the outer shell and is configured to be capable of moving the magnetic object while the magnetic object remains in contact with the outer shell. U.S. Patent No. 6,017,262 to Starnes teaches a tongue snatching creeper toy, however, fails to teach the tongue operably coupled to a motor and comprising a plurality of elongated members connected as a lattice.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
